

## Our Vision

The European Institute for Strategic Analysis and Policy Initiative (EIPISA) is a non-profit think tank specialising in precise, transparent information to understand the political, economic and social reality between Europe and the Middle East and North Africa. We bring respected people, from all over the world, who have dedicated their professional life to analysis and understanding of these issues. We will contribute to creating a space of cooperation and common interests in all areas of activity that influence relations between European countries and the Middle East and North Africa.

## Our Mission

EIPISA's main mission is to provide analysis and discussion forums that are useful and relevant to the formulation of EU policy. As part of this mission we also act as an interface between European experts and decision-makers at all levels. EIPISA is a platform of experts, intellectuals and people who have a great knowledge of the reality in Europe and the Middle East, to provide clear, objective, transparent and easily accessible information to understand the political, economic, social and humanitarian situation in the Middle East and North Africa.

We present evidence-based precise and unbiased resource. We support the work and cooperation of all institutions who work with to and / or have a significant interest in issues relating to the Middle East to find permanent solutions. The activities of the EIPISA team are intended to improve the EU's analytical capacity and to facilitate the shaping of common approaches.

## What We Do

Our objective is to provide an infrastructure where experts, intellectuals, and political and economic personalities who have experience with the geostrategic challenge that define the political, economic and social structure in an increasingly globalised world.

By offering seminars, conferences, exhibitions and publications, we strive to build the bridges of understanding and mutual knowledge that will enable a fruitful cooperation for both the European Union and for the Mediterranean countries and the Middle East. We believe in our mission and we are dedicated to making it possible.

Nevertheless, EIPISA is also developing its Training Academy, which aim is to help to give a more solid formation to EU and MENA officials, NGOs, official institutions and refugees seeking integration in reception countries or that wish to develop their skills for helping reconstruct their origin country.

This is a very challenging task but we have a very solid network of experts, diplomats, professors and former politicians from a wide range of MENA countries that are willing to work with us to deliver objective and unbiased information with which aim to implement the principles of democracy, human rights and good governance in Europe's neighbour countries.

## EIPISA Training Academy

At EIPISA we propose the following trainings for better understanding the EU-MENA reality.

We give formation to officers in Europe and Middle East for better understanding the international and local context that they will have to face for implementing human rights, democracy and good governance principles.

- Local Service Delivery:

Increase the quality of and access to services for all citizens.

- Decentralisation & Inter-administrative Relations:

Enhance effective cooperation between different levels of government.

- Gender Responsiveness:

Work on gender mainstreaming and participation of women in local policies and service delivery.

- Leadership & Municipal Management:

Improve skills to create a shared vision, communicate with stakeholders and manage the municipal organisation.

- Subnational Conflict & Peacebuilding:

Work on conflict prevention and social cohesion between different groups in society.

- Human Rights & the Rule of Law:

Promote access to justice and protect minorities and vulnerable groups.

- Citizen Participation & Inclusive Governance:

Include voices of all citizens in the policy process
